Year 2 - animal teeth

It has been a fun-filled and experimental week here at Meldreth as children have been learning about all things scientific. During Science Week, pupils in all classes took part in a variety of exciting activities, on the theme of 'Curiosity What's your question?' based on the book *The Most Important Animal of All* by Penny Worms.

A big thank you to **Mr Hargreaves** for organising such a fantastic week and for leading the inspiring science assembly as Engineering project. If your child would like to continue exploring science at home, why not download the [British Science Week Activity Pack](#) and try some of the activities together?

Growing and Changing

In the week before the Easter holidays, all children will take part in age-appropriate discussions about the changes that happen as we grow. We believe it is important for children to develop confidence in themselves and to understand the changes they may experience - not only in their bodies, but also in their emotions and relationships.

As part of our Sex and Relationships Education (SRE) curriculum, children will explore these topics in a sensitive and age-appropriate way. Further details about the specific programme content for each year group will be shared with parents via email. [Here](#) is a selection of the resources we will be using with the children.

Summer Uniform

A huge thank you to parents and pupils for the standard of school uniform this term. If you are thinking of upsizing to your next school uniform before the summer holidays or dressing in cooler summer uniform please bear in mind our guidance:

- white or dark green polo shirt, or white blouse
- dark grey trousers, skirts or shorts (no leggings please)
- green and white check or striped summer dress
- flat, dark shoes or sandals with a good grip and proper support (**no flip-flops or crocs please**)
- Jewellery and nail polish are not permitted in school. The exception to this rule is small earring studs or a watch in KS2

Improving Your Child's Sleep

The Children's Wellbeing Service recognises that many parents find their child's sleep difficult to manage. To offer further guidance, they have developed four short videos: [Part 1](#), [Part 2](#), [Part 3](#), and [Part 4](#) (for adolescents).

Preschool News

As the Easter break is approaching quickly, this week marked the final week of our Spring topic. From next week, the children will begin exploring our new topic of Easter. With the lovely sunny weather, both the Caterpillars and Butterflies have been spending more time in the garden, exploring the outdoor environment, and searching for minibeasts. The children showed great curiosity, looking closely and asking questions to learn more about what they found.

Across both rooms, the children have been enjoying creating spring crafts and exploring a variety of messy play and sensory tuff trays. The lovely weather and large garden have also provided opportunities for the Caterpillars and Butterflies to spend time playing together, helping support the Caterpillars as they prepare for the next stage in their preschool journey. We also have lots of exciting events coming up, including Junk Modelling Day, our Easter Party, and Preschool Graduation Day. Please keep an eye on the weekly notice poster for upcoming dates and information.
