

Swift Signpost 30

Super Science!

Today we are going to make bird feeders. Putting a bird feeder in your garden can bring all sorts of benefits - you will help parents feed their chicks, help birds to remain healthy and you get to observe birds more closely as they will visit your garden more.

Watch Miss Jackson show you how to make two simple bird feeders on our [Swift Class Home Learning](#) channel.

Bird Watch

Once you have made your bird feeder make some time each day to observe bird activity in your garden. Are there more birds visiting? Which birds are coming to visit? Make a note each day.

Topic/Writing activity

On Monday, you were introduced to Superworm. Julia Donaldson uses rhyming verses in her books. Words that rhyme share the same sound/s - like snow and go, puffin and muffin. Today we are going to match words and pictures from the story.

Activity

Cut out the pictures and words at the bottom of the signpost. Match the rhyming words together.

Challenge - make your own rhyming pairs with things around your home e.g. tea and tree.

TRICKY WORD SPELLING -

Today you are going to choose.

- Play [Spooky Spellings](#) on ICT games
Or
- Play [Writing Repeater](#) on ICT games using the words above or maybe your adult can decide.

love come friend school house
ask once push pull there

TIME FOR A BIT OF FRESH AIR

Today we are going on a bird spot walk.

Whilst you are out, see if you can see any of these birds.

Reading Corner

Watch the [Alphablocks](#) episode book.
In the episode, there are words missing in the story of Little Red Riding Hood.

Task - Think of your own 'oo' words to complete the sentences when the words are missing.

MAGNIFICENT MATHS - Money (recognising coins).

Did you know that coins can be used to make up other amounts of money?

Look at my example-
five 1p coins can be used to make 5p.
You can also make 5p by using two 2p
coins and one 1p coin.

Today you are going to explore making
other amounts using coins in your home.

Activity

Complete the task on the attached
sheet. How many ways can you make a
coins value? Use the jars provided.
You can do more than one coin if you
like.

Show what you know or find out what you can about each of the headings. Try to do some work on each of the tasks but do try **and** do MORE about the one you like the sound of most. **Ask a parent to email your work for Miss Jackson to mark.** cjackson@meldreth.cambs.sch.uk
