## MATHS CHALLENGE

Roll 2 or 3 dice to make an addition number sentence.

Use a number line to help you by counting on from the first number with the remaining two numbers.

$$\boxed{6} + \boxed{6} + \boxed{4} = 16$$

## It's Choosey Tuesday!

Every other week we are going to ask you to make a choice about what you would like to do.

1. Try some shadow art like the picture on the left. Drawing round the shadow of a tree or a plant.
2. Try being a leaf detective using the attached resource whilst out on a walk with your family.

# Move Up task

Happy Tuesday All!

Your moving up task today is to ask me 5 questions. They can be questions about me or about the class. If you upload them to Tapestry I will answer them for you.

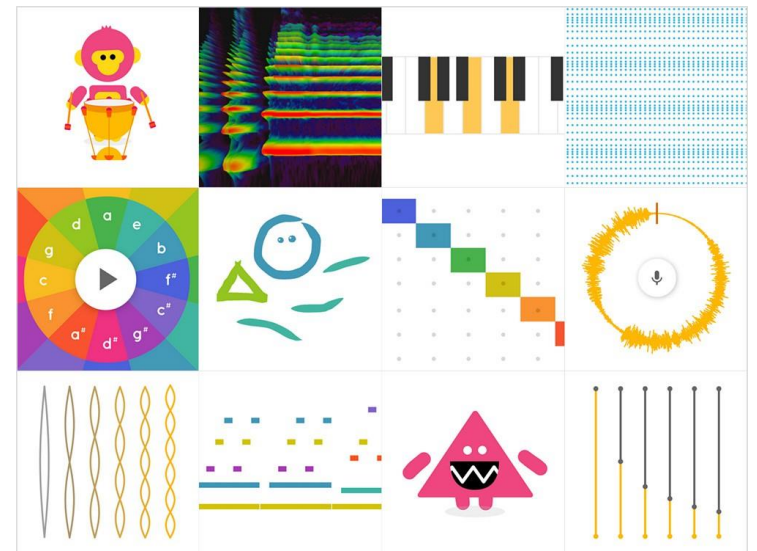

From Miss Cole

## Music - it's choosey Tuesday

This week we will be visiting the Chrome Music Lab again and I would like you to explore the rhythm section.

<https://musiclab.chromeexperiments.com/>

Rhythm is a strong repeated pattern of sound. You can add percussion at the bottom of the rhythm screen by clicking on the grey circles. Explore and see what you find.

## Free Write

One of Miss Jackson's favourite animals are Red Pandas. Watch this [video](#) to find out more about these furry creatures and write some facts for me.

## Reading Corner

Watch [The Very Quiet Cricket](#) by Eric Carle.

Through persevering, the quiet cricket finally made himself heard. What have you persevered at that made you proud?

Plan, do, review - Visit [Purple Mash](#) using your school login.

You can either...

1. Create your own cartoon using 2animate. Maybe you could animate your Oi Book?

Or

2. Use 2paint a picture to create your own masterpiece. Try pointillism or Poly-Mosaic.

Show what you know or find out what you can about each of the headings. Try to do some work on each of the tasks but do try **and** do MORE about the one you like the sound of most. **Ask your parent to post photos of your work on Tapestry**
