

LOOK UP!

Have you every wanted to visit space? Do you dream of being an astronaut?

This term, Wren Class will take one giant leap...

Our English work will centre around the book Bob, Man on the Moon. We will look at the structure of this story and write our own versions.

The children will begin to look at subordinating/coordinating conjunctions ([click here](#)) and write instructions, reports and list poems.

Work on place value will continue in Maths. We will also move on to addition and subtraction. [Click here](#) to find our calculation policy.

In science, the children will look at uses of everyday materials. We will look at the suitability of materials for particular uses.

In history, we will find out about the 1969 moon landing and people instrumental to our understanding of space.

To support our work, we will use the book Counting on Katherine.

In art and design, the children will explore different ways to create portraits and look at mechanisms.

Our computing focus will be e-safety and looking at the different tools we have in school to support safety online.

Our PSHCE unit is family and friends. We will link this to our learning in RE.

Our PE unit up to half term will cover outdoor adventurous activity. We will focus on teamwork and communication.

Mrs Morris will take the class for RE, music and show and tell on a Thursday afternoon. They will continue to look at the big question what communities do I belong to? and in music they will complete the Charanga unit Hands Feet Heart.
